

The Carthage Central School is committed to the concept of Shared Decision Making and encourages broad involvement and meaningful participation of all stakeholders. The District has a Shared Decision Making Team at all buildings as well as a District Planning Team to address various educational issues which directly impact student achievement. This is reflected in our current mission statement:

*Comet Pride*  
*Embrace the Power of Working Together*  
*School-Family-Community*

Communication and collaboration are key in making our District a high performing learning organization where all children and adults thrive. If you have a question or concern, you are encouraged to contact a parent or community representative listed below and they will ensure that your issue is addressed by the correct District or Building Shared Decision Making Team. If the topic is out of the scope of these teams, it will be directed to the correct venue for discussion.
